**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**LISTING OF CLAIMS**

1. (Previously Presented) A method of recruiting a resource, comprising:  
establishing a communications link between a requesting computer and a providing computer that is not controlled by the requesting computer;  
the providing computer rejecting a first non-empty set of conditions communicated by the requesting computer; and  
the providing computer providing a second non-empty set of conditions, different from the first non-empty set, as part of a negotiation under which the providing computer provides the resource to the requesting computer.
2. (Original) The method of claim 1 wherein the requesting computer is located at a distance of at least 1 kilometer from the providing computer.
3. (Original) The method of claim 1 wherein the requesting computer and the providing computer are not both members of a single local area network.
4. (Previously Presented) The method of claim 1 wherein the negotiation comprises negotiating a compensation rate for the use of the resource.
5. (Previously Presented) The method of claim 1 wherein the negotiation comprises negotiating a subject matter to which the resource will be applied.
6. (Previously Presented) The method of claim 1 wherein the negotiation comprises negotiating a percent of availability of the resource at the providing computer.
7. (Previously Presented) The method of claim 1 wherein the negotiation

10/089,393

comprises negotiating another condition under which an additional resource computer provides another resource to the requesting computer.

8. (Currently Amended) The method of claim 6 wherein an additional resource computer is located ~~is located~~ at a distance of at least 1 kilometer from the requesting computer.

9. (Original) The method of claim 1 further comprising:  
the requesting computer obtaining an item of ratings information about the providing computer from a directory hosting computer; and  
the requesting computer executing a first program code that determines an extent to which the requesting computer interacts with the providing computer based at least in part upon the obtained item of ratings information.

10. (Original) The method of claim 9 wherein the item of ratings information relates to a job previously executed by the providing computer with respect to at least one of a satisfaction value, a promptness value, a recency value, a reliability value, a type of work value, and a compensation value.

11. (Previously Presented) The method of claim 9 wherein the negotiation includes the requesting computer using the item of ratings information obtained from the directory hosting computer to negotiate with the providing computer.

12. (Original) The method of claim 1 further comprising the providing computer listing the resource on a directory of available resources.

13. (Original) The method of claim 12 further comprising the providing computer listing the condition on the directory of available resources.

14. (Original) The method of claim 12 further comprising a hosting computer hosting

10/089,393

the directory, and associating a ratings with the providing computer.

15. (Original) The method of claim 12 further comprising the providing computer additionally listing an item of ratings information on the directory.

16. (Previously Presented) The method of claim 1 wherein the negotiation occurs automatically without any direct human intervention.

17. (Original) The method of claim 1 further comprising the requesting computer broadcasting a recruitment message.

18. (Currently Amended) A directory of computer controlled resources, comprising:  
a plurality of resource descriptions;  
at least one condition for use of each of the plurality of resource descriptions; and  
at least one item of compensation value for each of the plurality of resource descriptions, wherein the at least one item of compensation value is used by a requesting computer to negotiate with a providing computer for use of at least one of the computer controlled resources.

19. (Original) The directory of claim 18, wherein the condition relates to at least one resource availability factor selected from: available time, subject matter restriction, task priority, compensation, and likelihood of downtime.

20. (Previously Presented) The directory of claim, 18 wherein the condition comprises an authorization for the requesting computer to report to a directory hosting computer an item of ratings information regarding an interaction between the requesting computer and the providing computer.

21. (Previously Presented) The directory of claim 18, further comprising an item of ratings information that includes at least one of a satisfaction value, a promptness

10/089,393

value, a recency value, a reliability value, a type of work value, and the compensation value.
